

Stroud Medical Centre

Client: PA Contract services

Location: Stroud town center

Value: £1.7m

Photo Detail

Project Specifics

This project involved the refurbishment and fit out of an existing building to form a new PCT medical centre, Podiatry Clinic and ancillary accommodation.

There are several other areas in the building including an existing shop unit and a potential pharmacy. There are common Landlords areas, stairways, and lifts.

Technical Characteristics

Scope of Works -

The design, supply, installation and HVAC, BMS, Plumbing and Electrical Infrastructure. Access control, CCTV and fire alarm.

Keen adherence to the medical HTM legislation to achieve the specified client requirements.

Project Successes

The refurbishment of an existing central building in the centre of Stroud, enabling better community service and bring further footfall to the shops and local amenities of the Stroud hub.
